Hi Anne,  
 Thanks for the message. We were glad to see you and Bill at the meeting on Friday as well. As you know, Boeing and General Electric have been engaged with the Agency on the aircraft standard for some time now. Your predecessor as PDAA was also our primary contact for both OAR and the Agency on this issue. In anticipation of you fulfilling that role going forward we would like to meet with you to provide some additional background information on the importance of the future rule to our international competitiveness. Please suggest potential dates and times that may be convenient for you in May. Thank you for your consideration of this request and we look forward to speaking with you soon.

All the best,
